

MS-Stage Plate and Tool Holders

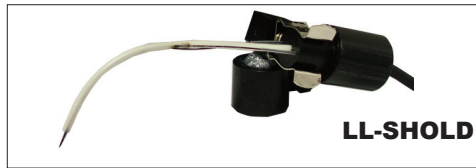

ALA's Scientific's MS-Stage and Tool Holders are ideal for positioning electrodes, perfusion outlets, and other small items, within the small confines of a microscope stage preparation.

MS-STAGE: Steel magnetic mounting plate offers large positioning surface and multiple tapped holes to securely anchor tool holders or other laboratory made devices. Central opening for use with all MS chambers or 35mm culture dishes. Easily mounts on standard upright or inverted microscope's platforms including Gibraltar, Narishige ITS, Sutter and Scientifica types as well as many microscope stages.

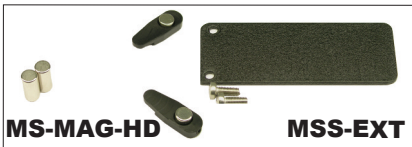

Tools are available in high- or low-profile versions with mounting cubes sizes of 1"(M) and 1/2"(MM), respectively, for accommodation to different setups. All tools have magnetic bases.

LLSHOLD: Magnetic holder for LevelLock™ sensor which enables control of fluid level and elimination of turbulence. Available on M-version base only.

TILTPORT: Tilt-a-Port™ magnetic perfusion holder with thumbscrew z-adjustable inlet/outlet port with grounding lug.

MS-MAG-HD: Hold down clamps for MS chambers

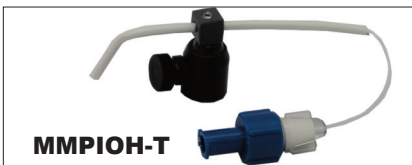

MSS-EXT: Extension plate mounts onto MS-STAGE to hold long tools

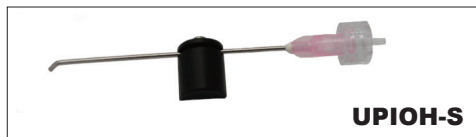

MPSALT-H: Agar bridge holder securely positions agar bridge (2.0 mm O.D. glass tubing) to movable chamber containing 8mm Ag/AgCl pellet disc. Available on M-version base only.

MUTOOL/MMUTOOL-H: Universal tool holder accommodates any item that can be mounted on a 2.25 mm I.D. stainless steel rod. Shown with optional TS-1 thermistor

MMPIOH-T: Perfusion port holder w/teflon tubing. Shown with CF-4 fitting optional.

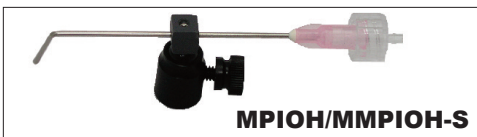

UPIOH-S: Ultra-low (1/4") perfusion port holder with luer lock-fitting steel cannula.

MCLIP/MMCLIP: Alligator clip with swivel and extension arm.

MPIOH-T: Perfusion port holder with Teflon tubing

MPIOH/MMPIOH-S: Perfusion port holder with luer lock-fitting steel cannula.

Ordering Information

MPSALT-H	Magnetic base Agar bridge w/Ag/AgCl pellet
MS-MAG-HD	Magnetic hold down clamps for MS chambers
MS-STAGE	MS chamber microscope stage holder
MCLIP	Magnetic crocodile clip/swivel
MMCLIP	MiniMagnetic Crocodile clip/swivel
MPIOH-T	Magnetic perfusion I/O holder w/Teflon tubing
MMPIOH-T	Mini Magnetic perfusion I/O holder w/ Teflon tubing
MPIOH-S	Magnetic perfusion I/O holder w/SS cannula and grounding lug
MMPIOH-S	Mini Magnetic perfusion I/O holder w/SS cannula
MUTOOL-H	Magnetic universal tool holder
MMUTOOL-H	MiniMagnetic universal tool holder
TILTPORT	Tilt-a-Port magnetic perfusion adjustable I/O port
LL-SHOLD	Magnetic LevelLock™ optional sensor holder with adjustable control
UPIOH-S	Ultra low-profile perfusion I/O holder with SS cannula
MSS-EXT	65x25mm extension plate for the MS-Stage
